**John Deere MODELS "AO" AND "BO" Orchard and Grove Tractors**

JOHN DEERE Tractor engineers haven't overlooked a single detail in providing for the needs of orchard and grove owners.

In the John Deere Models "AO" and "BO", you get everything you want in orchard and grove tractors. Whether for handling cover crops or straight cultivating, they're correctly designed to fit the job—built low down and styled to work close to the trees without danger of injuring low-hanging branches—shields and guards provide ample protection.

The "AO" will pull a 2-bottom sixteen-inch plow under average conditions; the Model "BO" pulls a 2-bottom fourteen-inch plow in most soils.

Both models are of the exclusive John Deere two-cylinder design, permitting the burning of low-cost fuels successfully—assuring simplicity, economical operation, low upkeep, long life. Foot-operated differential brakes make for short, easy turning. Shock-proof steering—easy handling.

Team up a Model "CC" Field and Orchard Cultivator with an "AO" or "BO" and you have a cultivating outfit unmatched for low-cost performance in orchard or field.

Congratulations to Sparta for its  
CIVIC BEAUTIFICATION PROGRAM  
Your  
**KROGER STORE**

has participated in this noteworthy civic enterprise... the store has been enlarged and additional shelving added, making it possible to carry a more complete stock of merchandise — two new produce racks have been installed — a new feed department has been added to the facilities of the store — and it has been completely redecorated inside and out. We are proud of our improved store... Stop in and look us over. ONWARD SPARTA!
