PAY DIRT...

"Hitting pay dirt" is a once-in-blue-moon
experience for the mining prospector.
But you "hit pay dirt" every payday.
The important thing is to keep it from
slipping through your fingers. Systema-
tically saving something every week, will
give you an ever-growing "stake" in the
future.

Alpine Township NEWS

Mrs. Wm. C. Andrews, Cor.
Phone EM 1-4982

Yoo Hoo Alpine! The township meeting for August will be Wednesday, August 3, at 8:00 p.m., instead of the usual first Tuesday. At this Tuesday's meeting the board approved the re-zoning of the Hofacker and Heft properties. Our volunteers made another call on Tuesday afternoon. A young lad playing with matches in tall, dry grass and the fire got away from him. By the way, another date to place on your social calendar. August 6. That's the Saturday night when the firefighters stage their annual howl at the Creveling barn for the dance they hope you will attend, and if you can't be there, perhaps you will buy a ticket anyway.

The Alvin Hills of 7-Mile Rd., named their daughter of June 21, Linda Ann... the Lloyd Hills are a-building again and the new home is nearing completion fast. They'll move just across the road... the Ed Tikkanens have purchased the John Moerman property on Peach Ridge... new owners of Tom's Used Auto Parts on Alpine are Donald and Mabel Allen... the Ed Hendershots are now living on 3-Mile Rd... Merle Mombert is painting his new barn, and we're painting our house... Mrs. Joe Dunneback and the girls are trailering at Pine Island Lake... sometimes summer is just plain ugh. So far the young ones have collected six snappers, two birds (deceased), a boxer and pointer (escaped), four snakes (released), and two baby rats (swapped)... Men! They razz 'cause a woman will vote for the good looking guy, yet would any deny that their wife made the best choice when choosing them?

TV CAMERAS TO WATCH FREEWAY TRAFFIC SOON

LANSING—State Highway Commissioner John C. Mackle has announced that bids will be opened here July 12 on the initial phase of the nation's first experimental closed circuit television traffic control system.

Mackle said 14 TV cameras will be mounted at key locations on a 3.2 mile section of the John C. Ford Freeway between the Edsel Ford Freeway and Davison interchanges. This is the most heavily traveled section of any Detroit freeway, carrying about 140,000 vehicles daily.

A push-button signal system also will be installed in conjunction with the cameras which will designate open freeway lanes and variable speed limits.

The cameras will be monitored in a central control room where traffic experts can operate the signal system to ease traffic tie-ups.

Mackle said an accident can be spotted on the monitors and traffic could be slowed or detoured around the accident, thus reducing traffic jams.

Highway officials also hope to learn more about traffic control and driver behavior through the experiment.

Estimated cost of installing the cameras is \$200,000. Costs are being shared by the State, U.S. Bureau of Public Roads, the City of Detroit and Wayne County.

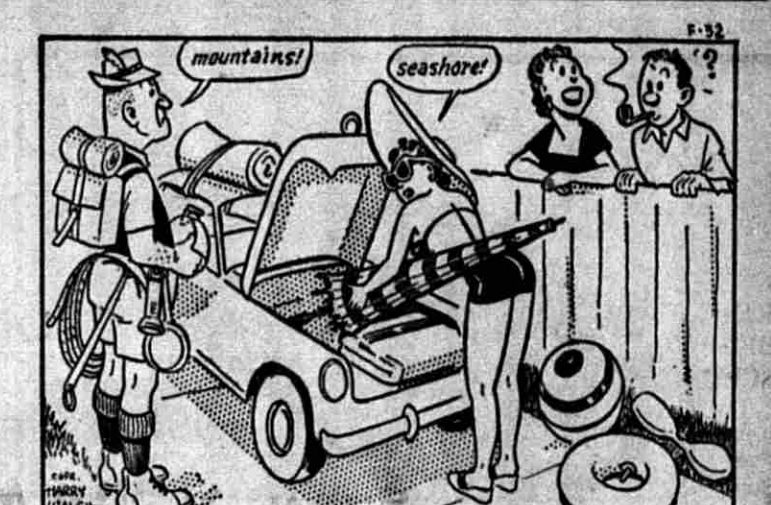

The oldest printed book is the Constance Missal printed by Johann Gutenberg about 1450. The first printing in the Western Hemisphere probably occurred about 1539 in Mexico City with the first printing in the United States beginning in 1638 at Harvard Academy in Cambridge, Mass.

The dollar that does the most good for us is the dollar which is kept in circulation.

Joel Chandler Harris, creator of "Uncle Remus," began his newspaper career at 14 in Atlanta.

The first American turnpike, known as Little River Turnpike, was authorized in Virginia in 1785. Today, Americans travel on over 750,000 miles of highway. To familiarize motorists with the luxury and comfort of driving a new car, auto manufacturers last year spent over \$80 million in newspaper advertising.
