**Trees for Reforestation Purposes Only**

Young trees now on sale by the Conservation Department are not available for lawn plantings. Michigan landowners are reminded.

During recent weeks, the Department has received a growing number of requests for these trees to help in landscaping yards. The Department points out that its supply of trees is offered to private property owners only for reforestation plantings, erosion control, and farm windbreaks.

About 10 million seedlings and transplants are available at approximate production costs for such uses. Species which may be ordered for delivery this fall or next spring include red, white, and Jack pine, white spruce, and Austrian pine.

Official stock price lists and order blanks may be obtained from the Department's forestry division in Lansing, or at offices of district foresters and county extension agents.

**Success car, '64 edition...**

The car that answers the question, "After their '63 model, what in the world will Pontiac do for '64?"

It wasn't easy, topping our super-successful '63. But we did it, with trim new styling; handsom new interiors; a smoother, quieter ride; Wide-Track stability; 389-cu. in. Trophy V-8 power in every model; isn't this what other cars wish they looked and acted like and don't?

'64 Pontiac Pontiac plus a whole new kind of Pontiac.
